I AA-CLUBS (professional subject associations)

1. **Akva's double-excursion to SYKE and WSP's Tampere office with Flokki 20.10.2022**

The day will start from Water Building at morning where we leave with bus and head to Finnish environmental Institute SYKE. In SYKE we hear about their activities in water centre and what it's like to work there. After the SYKE we head to Tampere and office of consultant company WSP. There we will hear about water- and environmental engineering from their point of view, storm water management and some of their recent projects. The visit is held with environmental engineering students of Tampere University and their association Flokki. After the WSP visit we will go to eat* with Flokki somewhere in Tampere. We will also have opportunity to explore the Hervanta campus area and spend time with Flokki in their guild room. We will travel back to Otaniemi in the evening.

*will likely to be self-funded

More detailed timetable and the participation fee (around 10 euros most probably) will be available next week. The registration will start on next week's Thursday 6.10. Any questions can be asked from Aarni-Matti Mäntyselkä tg:aarnimasa

II AALTO & AYY

2. **Teekkarius 150 + Radiodiodi = tradition week radio!**

Yes, you read that right because this year, in honor of the Teekkarius 150th anniversary, Radiodiodi has decided to participate in the celebration by organizing a tradition week radio during the teekkari tradition weeks from 7th to 18th of November. More information and registration for programme making can be found at radiodiodi.fi. Registration is now open and closes at 16th of October!

What is a Radiodiodi? Radiodiodi is an annual production from Otaniemi, where students have the opportunity to make their own radio programme. Programmes are produced by volunteering Aalto students (even you!). We facilitate it, you make it. The activity is free for students and does not

require any previous experience.

Join Radiodiodi chats on Telegram: <https://t.me/radiodiodichat> (casual conversation channel) and <https://t.me/radiodiodi> (info channel).

Follow Radiodiodi at Instagram @radiodiodi.

4. Join Teekkarispeksi 2023 musical production!

Do you dream of making theater? Teekkarispeksi 2023 is recruiting! Take the leap to the world of theater and join us in making the next musical theater production!

We are looking for people to work behind the scenes in scenery, props, costumes, makeup, etc. Our production is mainly in Finnish so we can't offer stage roles in English. Check all the options in the form below.

Apply with this form: <https://forms.gle/FDpnaJ8JrGSWu4ho9> . Application is open until 4.11.

5. Aalto Amazing Race 2022 is here!

Aalto Amazing Race is a wild, adventurous race aimed for the first year students in Bachelor's and Master's in Aalto, where the fuksis and master's fuksis get to meet other Aalto students across different disciplines. During the adventure, teams propagate forward by solving various puzzles and hidden clues while battling against time. A glorious afterrace event awaits those who make it to the finish line.

The participants are divided into interdisciplinary teams by the organizers. If you want, there is a possibility to pick a single friend to join your team with you. The race itself begins on Thursday 27.10. Teams will be sent out with short intervals starting from 15.00 at Otaniemi, where they will gather their team and get the first clue.
